enforcement programs and prescribes the administrative procedures available to a State that elects to contest a notice of inadequacy.

## § 198.53 When and how will PHMSA evaluate State damage prevention enforcement programs?

PHMSA conducts annual program evaluations and certification reviews of State pipeline safety programs. PHMSA will also conduct annual reviews of State excavation damage prevention law enforcement programs. PHMSA will use the criteria described in §198.55 as the basis for the enforcement program reviews, utilizing information obtained from any State agency or office with a role in the State's excavation damage prevention law enforcement program. If PHMSA finds a State's enforcement program inadequate, PHMSA may take immediate enforcement against excavators in that State. The State will have five years from the date of the finding to make program improvements that meet PHMSA's criteria for minimum adequacy. A State that fails to establish an adequate enforcement program in accordance with §198.55 within five years of the finding of inadequacy may be subject to reduced grant funding established under 49 U.S.C. 60107. PHMSA will determine the amount of the reduction using the same process it uses to distribute the grant funding; PHMSA will factor the findings from the annual review of the excavation damage prevention enforcement program into the 49 U.S.C. 60107 grant funding distribution to State pipeline safety programs. The amount of the reduction in 49 U.S.C. 60107 grant funding will not exceed four percent (4%) of prior year funding (not cumulative). If a State fails to implement an adequate enforcement program within five years of a finding of inadequacy, the Governor of that State may petition the Administrator of PHMSA, in writing, for a temporary waiver of the penalty, provided the petition includes a clear plan of action and timeline for achieving program adequacy.

## § 198.55 What criteria will PHMSA use in evaluating the effectiveness of State damage prevention enforcement programs?

- (a) PHMSA will use the following criteria to evaluate the effectiveness of a State excavation damage prevention enforcement program:
- (1) Does the State have the authority to enforce its State excavation damage prevention law using civil penalties and other appropriate sanctions for violations?
- (2) Has the State designated a State agency or other body as the authority responsible for enforcement of the State excavation damage prevention law?
- (3) Is the State assessing civil penalties and other appropriate sanctions for violations at levels sufficient to deter noncompliance and is the State making publicly available information that demonstrates the effectiveness of the State's enforcement program?
- (4) Does the enforcement authority (if one exists) have a reliable mechanism (e.g., mandatory reporting, complaint-driven reporting) for learning about excavation damage to underground facilities?
- (5) Does the State employ excavation damage investigation practices that are adequate to determine the responsible party or parties when excavation damage to underground facilities occurs?
- (6) At a minimum, do the State's excavation damage prevention requirements include the following:
- (i) Excavators may not engage in excavation activity without first using an available one-call notification system to establish the location of underground facilities in the excavation area.
- (ii) Excavators may not engage in excavation activity in disregard of the marked location of a pipeline facility as established by a pipeline operator.
- (iii) An excavator who causes damage to a pipeline facility:
- (A) Must report the damage to the operator of the facility at the earliest practical moment following discovery of the damage: and
- (B) If the damage results in the escape of any PHMSA regulated natural and other gas or hazardous liquid, must

#### § 198.57

promptly report to other appropriate authorities by calling the 911 emergency telephone number or another emergency telephone number.

- (7) Does the State limit exemptions for excavators from its excavation damage prevention law? A State must provide to PHMSA a written justification for any exemptions for excavators from State damage prevention requirements. PHMSA will make the written justifications available to the public.
- (b) PHMSA may consider individual enforcement actions taken by a State in evaluating the effectiveness of a State's damage prevention enforcement program.

# § 198.57 What is the process PHMSA will use to notify a State that its damage prevention enforcement program appears to be inadequate?

PHMSA will issue a notice of inadequacy to the State in accordance with 49 CFR 190.5. The notice will state the basis for PHMSA's determination that the State's damage prevention enforcement program appears inadequate for purposes of this subpart and set forth the State's response options.

### § 198.59 How may a State respond to a notice of inadequacy?

A State receiving a notice of inadequacy will have 30 days from receipt of the notice to submit a written response to the PHMSA official who issued the notice. In its response, the State may include information and explanations concerning the alleged inadequacy or contest the allegation of inadequacy and request the notice be withdrawn.

### § 198.61 How is a State notified of PHMSA's final decision?

PHMSA will issue a final decision on whether the State's damage prevention enforcement program has been found inadequate in accordance with 49 CFR 190.5.

## § 198.63 How may a State with an inadequate damage prevention enforcement program seek reconsideration by PHMSA?

At any time following a finding of inadequacy, the State may petition PHMSA to reconsider such finding based on changed circumstances including improvements in the State's enforcement program. Upon receiving a petition, PHMSA will reconsider its finding of inadequacy promptly and will notify the State of its decision on reconsideration promptly but no later than the time of the next annual certification review.

### PART 199—DRUG AND ALCOHOL TESTING

#### Subpart A—General

- 199.1 Scope.
- 199.2 Applicability.
- 199.3 Definitions. 199.5 DOT procedures.
- 199.7 Stand-down waivers.
- 199.9 Preemption of State and local laws.

#### Subpart B—Drug Testing

- 199.100 Purpose.
- 199.101 Anti-drug plan.
- 199.103 Use of persons who fail or refuse a drug test.
- 199.105 Drug tests required.
- 199.107 Drug testing laboratory.
- 199.109 Review of drug testing results.
- 199.111 [Reserved]
- 199.113 Employee assistance program.
- 199.115 Contractor employees.
- 199.117 Recordkeeping.
- 199.119 Reporting of anti-drug testing results.

### Subpart C—Alcohol Misuse Prevention Program

- 199.200 Purpose.
- 199.201 [Reserved]
- 199.202 Alcohol misuse plan.
- 199.203–199.205 [Reserved]
- 199.209 Other requirements imposed by operators.
- 199.211 Requirement for notice.
- 199.213 [Reserved]
- 199.215 Alcohol concentration.
- 199.217 On-duty use.
- 199.219 Pre-duty use.
- 199.221 Use following an accident.
- 199.223 Refusal to submit to a required alcohol test.
- 199.225 Alcohol tests required.
- 199.227 Retention of records.
- 199.229 Reporting of alcohol testing results.
- 199.231 Access to facilities and records.
- 199.233 Removal from covered function.
- 199.235 Required evaluation and testing.
- 199.237 Other alcohol-related conduct.
- 199.239 Operator obligation to promulgate a policy on the misuse of alcohol.
- 199.241 Training for supervisors.
